Course: Mobile Programming
Assignment: Zoo Directory

Application Description

A functional zoo directory app featuring:

How to Run

1. Viewing Animals:

- Open the app to see the list of animals
- Scroll vertically to browse all available animals
- Each entry shows:
    - Animal thumbnail image
   - Animal name

2. Viewing Animal Details:

- Tap any animal to see its full details
- Detail screen includes:
    - Large animal image
    - Animal name (top of screen)
    - Description text

3. Scary Animal Warning:

- **When tapping the last animal in the list:**
    - A warning dialog appears: "This animal is very scary. Proceed?"
    - Choose:
        - "Yes" to view the animal details
        - "No" to return to the main list

Screenshot

1. Main animals

Elephant

Large mammal with trunk

Giraffe

Tallest land animal
